The standard compensation package also includes contribution for life and health insurance and contribution to FICA. If the selected candidate qualifies as an off-shore hire under USAID regulations, the employee will receive post differential approved for Port-au-Prince, Haiti, housing, international travel, shipment benefits, and other applicable allowances.

- 6. PERIOD OF PERFORMANCE:** Two (2) years, based on the needs of the Mission and subject to the availability of funding.

- 7. PLACE OF PERFORMANCE:** Port-au-Prince, Haiti.

- 8. CLEARANCES:** The selected candidate must be able to obtain a Security Clearance at the "Facility Access" level and a Medical Clearance within a reasonable period of time. If such clearances are not obtained within a reasonable time or negative suitability issues are involved, any offer may be rescinded.

9. STATEMENT OF WORK:

(1) Purpose of Contract:

To provide services as a General Development Officer in the USAID/Haiti's Office of Infrastructure, Engineering & Energy.

(2) Introduction:

The overall goal of the U.S. Government (USG) infrastructure program in Haiti is to improve infrastructure that supports community and commercial development by investing in areas where it can add value and generate results to catalyze economic growth and assist Haiti in rebuilding its institutional capacity.

USAID/Haiti coordinates a \$2.2 billion USG Haiti Strategy composed of four pillars: Infrastructure and Energy, Food and Economic Security, Health and Education, and Democracy and Governance. With a planned life of strategy budget of over \$500 million, USAID/Haiti Office of Infrastructure, Engineering & Energy (OIEE) manages large-scale infrastructure activities, advises Mission senior staff, and provides specialized guidance to other technical teams in the Mission. The portfolio consists of four main components – housing, health infrastructure, ports, and energy, all designated as extremely high-priority programs by top officials of USAID and the Department of State.

In the port sector, USAID is supporting the Government of Haiti's (GOH) Post-Earthquake Action Plan by developing physical port infrastructure, improving the port operating environment, and strengthening GOH capacity in the sector in northern Haiti through the multi-year, multifaceted CHP Rehabilitation and PPP Project. Rehabilitation of the CHP and improving its operations and services will not only support the goal of improved infrastructure, but will also complement other USG investments in food security and agricultural development in the Cap Haitien corridor by improving farmers' access to regional and international markets and attracting increased investment and interest in agribusiness in the region, with potential for large amounts of exports of agricultural products to the U.S., Canada, and Europe. The CHP also aims to catalyze further development and expansion of the Caracol Industrial Park (CIP), which commenced operations in July 2012 as a result of partnership between the USG, GOH, the IDB, and Korea's leading garment manufacturer, Sac-A Trading Company.

(3) **Statement of Duties to be Performed:**

The contractor will provide program management services to at least two USAID activities that support the CHP Project. The specific duties of the incumbent may include, but are not limited to, the following:

- Provides oversight for and manages contracts and grants for the implementation of activities supporting the Haitian port authority and customs agencies to improve services at CHP and support increased competitiveness and efficiency of CHP operations.
- Coordinates closely with relevant GOH national and local level counterparts, USAID offices, members of the USG inter-agency, other bilateral donors, multilateral organizations, key private sector stakeholders such as port operators, shipping lines, etc., implementing partners, and non-governmental organizations.
- Serves as Contracting/Agreement Officers' Representative (COR/AOR) for Project contracts and grants with a combined total of approximately \$8 million. Provides

oversight and management of implementing partners for assigned contracts and grants, ensuring contractor/grantee adherence to work plans and timely completion of Project deliverables; and adjusting Project work plans and schedules as necessary;

- Oversees financial management of assigned contracts and grants, ensuring that obligations, expenditures, and budget pipelines conform to work plans; ensuring appropriate and timely incremental funding of activities; and preparing quarterly accrual estimates and tracking funds for activities implemented by contracts and grants.
- Oversees development of scopes of work and leads technical evaluations of procurements; and
- Prepares correspondence, briefings, memoranda, and other program materials related to implementation, management, and monitoring and evaluation of the Project as required by USAID policies and procedures.

Degree of responsibility for decision-making assigned to the position: The incumbent will seek clearance from higher levels as he/she will not have direct decision-making authority. A key contextual component of the work is the need to balance the interests of a number of competing interests to identify the optimal outcomes. The incumbent must take into consideration regulatory reform issues and other issues related to an integrated development strategy for northern Haiti. The work being performed is not typical of other development projects and is being completed in a country with limited human resource capacity and with weak host country systems.

(4) **Supervisory Relationship:**

The incumbent will report to the CHP Project Manager, who reports to the Office Director of OIEE or his/her designee.

(5) **Supervisory Controls:** This is a non-supervisory position.

10. PHYSICAL DEMANDS: The work requested does not involve undue physical demands.

II. MINIMUM QUALIFICATIONS REQUIRED FOR THIS POSITION

- **Education:** A minimum of a Bachelor's degree from an accredited college or university in economics, business, management, international relations, international development, or a related discipline is required.
- **Prior Work Experience & Knowledge:** At least six years of progressively responsible professional-level program management experience with responsibilities for technical management, administration, and oversight of contracts and grants is required. Extensive experience designing, managing, and implementing development programs is required. Program management experience should ideally include programs relating to institutional capacity building and trade capacity building. Demonstrated experience in coordinating with the U.S. government agencies, international organizations, and/or private sector entities working toward a common goal.
- **Language Proficiency:** Level IV (fluent) English is required. Strong oral and written French communication skills at the 2/2 level, per FSI standards, are required. Oral and written Haitian Kreyol communications skills are desirable.
- **Abilities & Skills:** This position requires a combination of technical, analytical, and managerial abilities; combined with excellent interpersonal, communications, presentation, and writing skills. The candidate must have superior leadership, negotiation, and interpersonal skills, especially in culturally-sensitive situations. Must be able to interact effectively with a wide range of U.S. and foreign national personnel at all levels of an organization. Must be able to provide sound and timely decisions regarding policies and procedures.
